

# History of Khmelnytsky Polytechnic Vocational College

---

Історія Хмельницького політехнічного фахового коледжу.  
Яремчук Павло ПІ-201

In 1957, the construction of a transformer substation plant (now Ukrelektroaparat) began, which was fully completed in 1965. At that time it employed 3,000 workers and the need for qualified personnel grew.

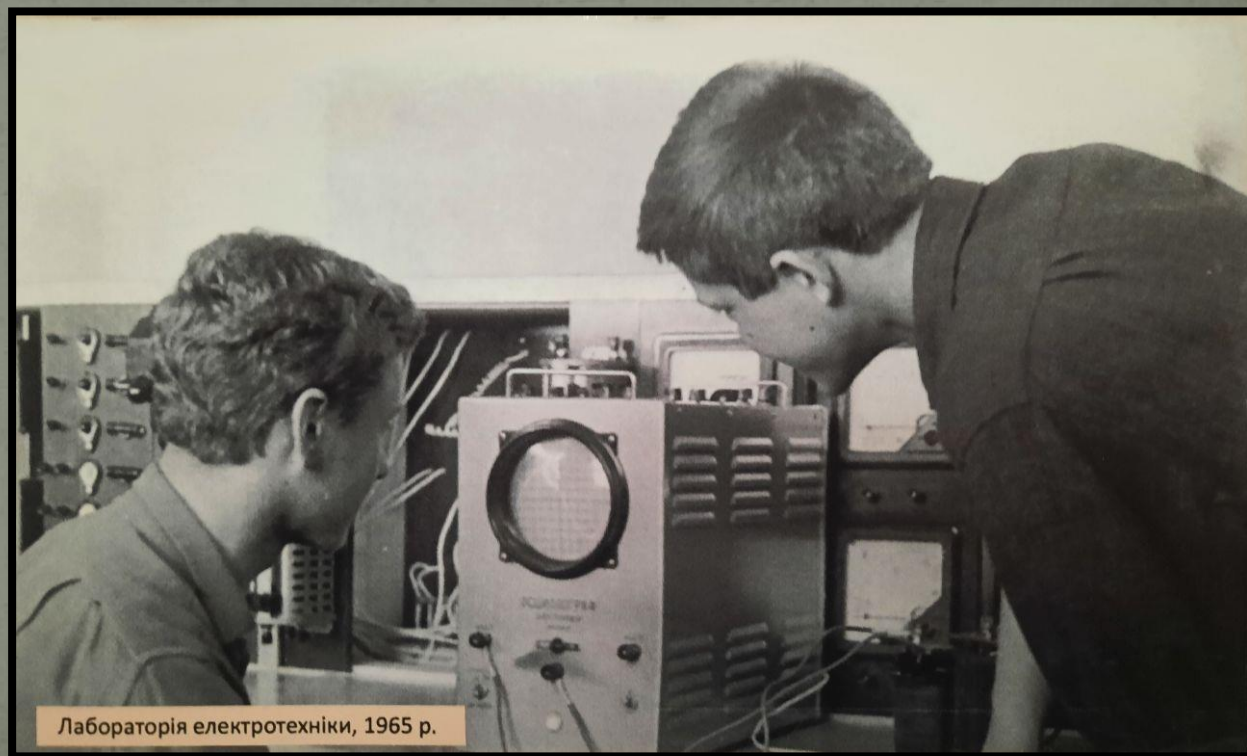

That is why in 1965 the decision of the Podolsk Soviet economy to create the Khmelnytsky Electromechanical Technical School appeared. The new school is located in the premises of the former school № 9.

An important role in the creation and construction of the technical school was played by the director of the plant M.E. Petrash, who was constantly interested in the problems of the technical school, provided great practical assistance. In a short time, with the help of the basic enterprise KHTP, 12 offices and laboratories were created and equipped.

Ivan Yegorovich Altukhov became the first director of HEMT. The pedagogical collective amounted to 13 teachers who fell the first major 6 years of the formation of an educational institution.

The first set took place in 1965. 157 boys and girls for two branches - "Electromechanical construction" and "metal processing" were credited to study.

технікуму, 1965 р.

The successor of I.E. Alimukhov became Filimon Andriyovych Hryhoruk, who headed the HEMT team from 1971 to 1974. Under his leadership, the construction of a new building was completed, 24 offices and laboratories were equipped, and in 1972. opened a new specialty: "Technician-technologist for the operation of CNC machines."

From 1984 to 2014, our team was headed by Mykola Dmytrovych Bodaretsky. Thanks to his initiative, energy and perseverance, our institution occupies one of the first places in Podillya. The material and technical base is enriched, new specialties are opened: "Maintenance of computer and intellectual systems and networks", "Management in the production sphere", "Programming for electronic computers and automated systems", "Economics of the enterprise".

In 2014, a candidate was elected to the position of director, and now - Doctor of Economics, Associate Professor Vadym Vladimirovich Ovcharuk. Due to his foresight and perseverance, on March 23, 2015, college was merged with the National University "Lviv Polytechnic". This gave a new powerful impetus to the development of the school.

Lviv Polytechnic

Khmelnitsky Polytechnics are real patriots. After conducting the flashmobe "Trident embroidery", we twice, in 2017 and 2018, established the records of Ukraine and were listed in the book of records of Ukraine.

**Національний рекорд політехніків  
"Тризуб вишиванок"**

The good reputation of our school contributed to the fact that the college is the only school of this level, had the honor in September 2020 to meet a delegation consisting of the President, Minister of Education, government officials, deputies and leaders of the region.

Here so our college lasted to today. For 55 of existence produced thousands of wonderful workers, gave hundreds of workplaces and glorified our city the achievements.
